

# Anderson County SOIL & WATER CONSERVATION DISTRICT

## *Bulletin Board Contest*

### **Rules:**

The Bulletin Board Contest is open to any K-4<sup>th</sup> grade class in Anderson County. Bulletin board projects are a class effort and should include work of all students in the class. School groups such as science clubs, environmental clubs, or other after school programs are welcome to compete. There is no restriction on the size of the bulletin board.

### **Topic:**

Healthy soils are the foundation for all life on Earth. Soil is an important resource for everything from human health to agriculture to water filtration. The imperative benefit of healthy soil is food production. Healthy soils also give us clean air and water, plentiful crops and forests, diverse wildlife and beautiful landscapes. It is important that each of us recognize where our food comes from and the farmers and ranchers who are dedicated to using responsible land-management practices to ensure a sustainable food supply and healthy land and soil for future generations.

### **Prizes:**

One class/group will be selected, for an ice cream party, on a county-wide basis. Multi-grade groups (i.e. science clubs, etc.) will be judged at the highest grade level represented by the group.

### **Deadline: March 25, 2022**

All participating schools should contact the Anderson Soil & Water Conservation District office by March 11th to sign-up for a time to have their entries judged before the deadline. Please contact Pamela Richey if you have any questions or need further information.
